

Lila Tauzin-Fox

Los Angeles, California • l33@cornell.edu • (310) 422 - 4356

Education

Cornell University, College of Engineering

Bachelor of Science in Mechanical Engineering, Minor in Spanish

Ithaca, NY

May 2026

Professional Experience

ArtOfficial

Project Manager & Technician Assistant

Red Hook, New York

June 2025- August 2025

- Applied electrical and mechanical knowledge to help build and repair painting 8ft x 8ft gantry robots.
- Modeled in CAD structural parts for a painting gantry machine. Designed a mechanism to hold up the ink cartridges and maintain them at a 45 degree tilt when the machine was in both its vertical and horizontal orientation.
- Learned methods of prompt engineering and designed AI-agents to create and assign tasks to the team in Linear from meeting transcripts.

Laboratory for Surface and Interface Physics

Research Intern

Granada, Spain

September 2024 - December 2024

- Utilized microgel-based nanoparticles for soft nanoplating, enhancing solar panel efficiency and enabling self-cleaning properties.
- Facilitated the development of generalist algorithms for cellular segmentation, using Excel to organize and analyze data.
- Designed and carried out experiments to test hypotheses developed by my research supervisor.

Patterson Service Station

Mechanic Apprentice

Ithaca, New York

September 2023- May 2024

- Learned the functionality and construction of different mechanical car parts through shadowing and helping the lead mechanic.
- Completed and assisted in oil changes, tire changes, tire balancing, and alignments.

Community Foundation of Greater Buffalo

High Road Fellow

Buffalo, New York

June 2023 - August 2023

- Conducted interviews with local leaders and researched climate change policy in Western New York.
- Produced a research paper to guide the climate-related investments and action of the Community Foundation of Greater Buffalo.
- Designed a [website](#) using WIX to connect community members to NYS climate resilience programs and weatherization loans.

Mathnasium Learning Center

Interdisciplinary Mathematics Tutor

Los Angeles, California

March 2022 - June 2022

- Taught students from age 5 to 15 math concepts through hour-long sessions.
- Managed 5-7 children of varying levels per hours-long session and kept them engaged and challenged through specialized lessons.

Extracurricular Experience

CUSail

Mechanical Subteam Member

Ithaca, New York

September 2023- August 2025

- Worked in a multi-disciplinary team to design and build a small automated sailboat to bring to state-wide competition.
- Created intricate and elaborate 3D designs through software like Solidworks and testing stress concentrations and durability of models through ANSYS.

Kappa Alpha Theta

Member of Sexual Assault and Prevention Safety Committee

Ithaca, NY

February 2023 - Present

- Participate in philanthropic events like Rock the CASA to raise funds for underserved youth.
- Engage in open dialogue to build a safer social community for Cornell students through weekly inter-organizational meetings.

Skills

- Fusion360, SolidWorks, ANSYS
- Matlab, Python, HTML
- Excel, Powerpoint, GoogleSheets
